**COMMENTS INVITED ON APPLICATION OF AT&T COMMUNICATIONS
OF ILLINOIS, INC. AND AT&T COMMUNICATIONS OF INDIANA GP TO
DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 07-24
Comp. Pol. File No. 777

Comments Due: February 20, 2007

Section 214 Application

Applicants: AT&T Communications of Illinois, Inc. and AT&T Communications of Indiana GP

On January 29, 2007, AT&T Communications of Illinois, Inc. and AT&T Communications of Indiana GP (collectively AT&T or Applicants), located at **PO Box 598016, Orlando, FL 32859**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services to customers in Illinois and Indiana.¹

AT&T indicates that it currently provides interstate residential local exchange service in Illinois and Indiana. AT&T specifies that this service is a basic telephone exchange service that allows customers to make local calls within a local exchange, which includes local calling areas that cross state boundary lines. AT&T states that, as a result of the acquisition of AT&T Corp. and its subsidiaries by SBC Communications Inc., AT&T now plans to discontinue the interstate residential local exchange service that it currently provides in Illinois and Indiana. However, AT&T further states that it plans to allow these customers to migrate to the local service platform of AT&T's new local exchange carrier affiliates, AT&T Illinois and AT&T Indiana. AT&T indicates that it plans to discontinue service to affected customers on or after March 26, 2007, subject to Commission authorization. AT&T maintains that there are many alternative providers of local exchange telephone service in the affected areas including AT&T Illinois and AT&T Indiana. AT&T also states that customers should not experience any loss in service as a result of the discontinuance because AT&T plans to migrate customers automatically to the appropriate new AT&T affiliate unless customers elect to receive service from another provider. AT&T indicates that it notified affected customers of the proposed discontinuance by letters sent via U.S. Mail on January 26, 2007. Finally, AT&T asserts that it is non-dominant with respect to the services it proposes to discontinue.

¹ This filing was subsequently received in the Competition Policy Division of the Wireline Competition Bureau on February 1, 2007.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the thirty-first (31st) day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In AT&T's application and notice to its customers AT&T indicates that it anticipates discontinuing service on or after March 26, 2007. Accordingly, pursuant to section 63.71(c) and the terms of AT&T's notice and application, absent further Commission action, AT&T may terminate service on **March 26, 2007**. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **February 20, 2007**. Such comments should refer to **WC Docket No. 07-24 and Comp. Pol. File No. 777**.
